**Subject:** Lakeside Community Council Minutes of September 26, 2006 Meeting Amended

### **Lakeside Community Council Minutes September 26, 2006 Amended**

Meeting called to order by Chairman Gregg Schoh. Minutes for August read by Secretary Jerry Thornburg and approved by council.

Members present - Gregg Schoh, Bill Buxton, Dave Anderson, Jerry Thornburg, Bruce Young, David Reynolds.  
Members absent Janet Heinze.

Jerry Thornburg presented a preliminary layout for Edgewater Vacation Village, an addition to Edgewater RV Park; owned by Bill Bloomgren who could not attend meeting and asked that it be brought to the council's attention so any questions or concerns could be addressed. After examining the plan and several questions answered, the council wanted to know that a county application is being submitted and if "park models" cabins were approved in the zoning. Those questions will be forwarded to the owner.

The Ben Williams Park committee met on 9-18 and discussed options for park use. Tennis courts were highly recommended. A baseball field was thought to be too big for the existing park. Also a running/jogging track was recommended. Bruce Young stressed the importance of modern restroom facilities being a top priority. Bruce also felt a baseball diamond would take less than half of the park and hinted that the community consider one if space was their only concern. Tamara Tanberg, chair of the committee, had contacted the county to discuss the meeting and get the county's response. No response as of this council meeting. A newspaper visited the park and took some pictures.

Dale Lauman spoke about the park and how he's been part of discussion about the park for years and Dale voiced his continued support for the council and it's committees actions. Dale also offered comment on the dump containers and how he feels a "beautification addition" to the dump area is likely in the future. (dump containers being across the street from the park).

Other subjects discussed were the well, on the park property and what will be needed to make it functional, detail plans for the park and the need for proper lighting at the park. Park committee reports will be part of the monthly agenda.

Neighborhood planning was brought up and after discussion about the county's actions with the growth policy and Lakeside's existing neighborhood plan, the council will be best served to start action after the growth plan is completed and at that time the council can review and approach Lisa Horowitz to assist in updates. Gregg Schoh stressed the importance of the council prompt action at the proper time.

Several questions from those attending about area restaurants, proposed golf course and other local alleged development were discussed and clarified.

Motion was made to adjourn by Jerry Thornburg, seconded by Bruce Young. Meeting adjourned.
